

Company Profile

SPGMR Technologies is a global management consulting firm and the world's leading advisor on business strategy. We partner with clients from the private, public, and not-for-profit sectors in all regions to identify their highest-value opportunities, address their most critical challenges, and transform their enterprises.

Our customized approach ensures that our clients achieve sustainable competitive advantage, build more capable organizations, and secure lasting results. We seek to be agents of change—for our clients, our people, and society.

History

Established in 2005, SPGMR Technologies has grown to be a reputed organization catering to corporations worldwide. With wide industrial sector coverage, world-class clientele and high caliber candidates, we have always measured ourselves through 'challenge'. We are devoted to achieving and maintaining the highest standards of professionalism and reaching out to procure the total range of requirements set by our clients.

Focus

Our focus is providing a fast, effective, personal service for clients with high standards demanding high caliber candidates, properly screened and briefed with expectations that meet the client's criterion. Traditionally, our primary focus has been on middle to senior management appointments for both international and leading Indian business houses in various sectors such as

- FinancialServices
- Industrial
- ProfessionalServices
- Technology

Philosophy

We aim for complete customer satisfaction through reliable, consistent and time bound performance. Each client is important to us and gets personalized and confidential service, irrespective of size or even volume of business generated.

Our mission and values form the framework for all our decisions and activities, a guideline for leadership based on which, we commit to excellence through continuous improvement of our services.

Understanding

As experts in the Technical & Professional industry we know what unique challenges you face, because we've faced them alongside the companies and candidates we've worked with over the years. But we've managed to help them overcome those challenges, through practical and viable solutions.

Commitment

SPGMR Technologies consistently demonstrates a commitment to outstanding service delivery and strong professional and ethical values. We strive to build lasting relationships and our commitment and reliability to our clients means their coming back to us for more.

Needless to say, confidentiality is the life blood of our business, and at SPGMR we ensure that confidentiality of both, our clients and candidates are maintained at all costs.

Quality Process

Quality in the complete system of placements division has been always our priority. Right from the start of every process and every operation of the organization we take utmost care and at no stage compromise on quality.

This helps us to provide an efficient and effective service to our esteemed accounts both in India and Overseas.

Services

Consulting

We are proud to offer you the ideal and customized solutions to your recruitment needs. All our consultants are highly experienced recruiters; we use our knowledge and skills to meet the individual needs of our clients and candidates.

We work in partnership with our clients and candidates alike, working ethically and honestly at all times. We work with like minded businesses and have built strong relationships based on open and honest communication. Our clients trust us to help recruit the right people.

We take time to meet each candidate in our private interview facilities, allowing them to talk freely and confidentially about their motivations, aspirations and personal criteria. By putting their trust in us our candidates have the confidence that we will act in their best interests. With our highly customized services, we capitalize on our efficiency and reduce your efforts in the recruitment process to a level that suits your organization's needs.

Outsourcing

Outsourcing of Manpower has become normal routine among companies nowadays. From Fortune 500 league to small scale enterprises every business entity understands the advantages of Manpower outsourcing. Business requires skilled manpower with adequate professional qualification. With ever increasing business demands it becomes increasingly difficult for companies to get into the intricacies of screening hundreds of applicants and selecting the best out of them. They prefer to concentrate on the business and stay away from this messy and time consuming process. Now this is where a Manpower Outsourcing Company comes into the scene.

- Recruitment and Training.
- Supervision.
- Compliances and Payroll Management
- HR Policies
- Customer Care

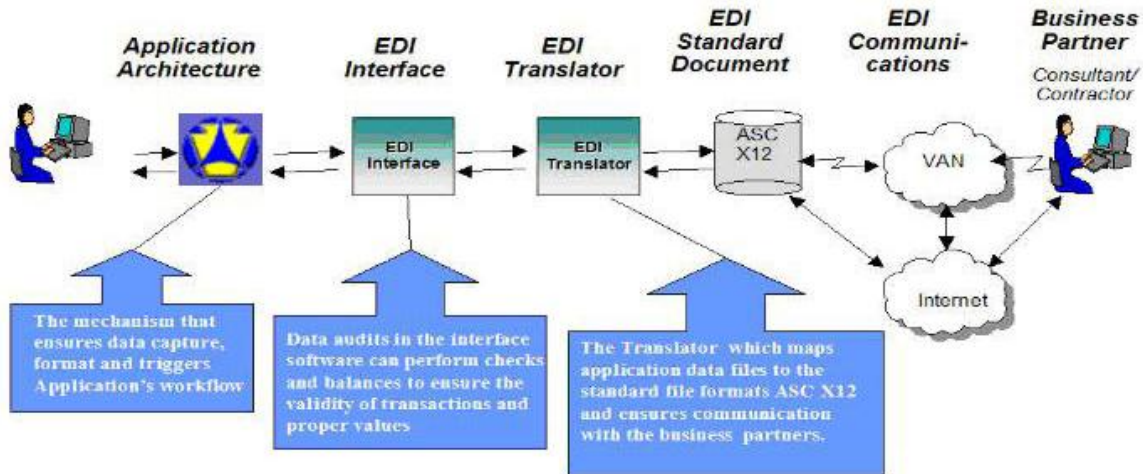

Development

SPGMR Technologies wealth of knowledge covers the world's major industries and the most crucial business issues. Our broad range of expertise and clean-slate approach to finding solutions have led us to develop new ideas that quickly become the standard. Our objective is not

simply to apply best practice, but to invent it. We think creatively and partner with our clients to solve their toughest challenges.

By taking a holistic, analytical approach to our clients' most challenging issues, we are able to develop solutions that deliver lasting value. Read through the highlights of some of our most successful client projects to see how we have created competitive advantage
